Exploring the Hype(r) of Languages Learning and Teaching

Hypermedia ethnography takes observation, communication and collaboration into digital and virtual spaces and, in so doing, allows for multimodal investigations (Dicks et al., 2005).

Theoretical Perspective

Phenomenology

Ontology and Epistemology

Social constructionism

Connectivism

Languages is one of the key learning areas in WA’s Curriculum Framework: The Action Reflection Cycle. Adapted from CELT (2008).
